How often have you said to yourself, “I wish I could do something to help”?

Thrivent Financial for Lutherans gives you an opportunity to take action and make a positive impact in your community by getting involved with your local Thrivent Financial for Lutherans chapter.

Through Thrivent chapters, you have a wonderful opportunity to make a difference and help others in a way that fits into your schedule! Chapters manage and administer funds available through a program called Care Abounds In Communities®. This program supports:

• Activities our members conduct to help other members, individuals, families—and their communities.

• Examples include fundraising and hands-on service, educational and social activities that bring chapter members together.

So, how would you like to help? What is your passion? Please contact a member of your chapter leadership board (listed below) for information about the Thrivent chapter system, Care programs, and how you can get involved in a membership organization like no other.
